ESYLUX

**INTELLIGENT LIGHT
IN CLASSIC DESIGNS. ESY!**

**LED OUTDOOR LIGHTS
AL SERIES**

PERFECTION IN DESIGN AND SENSOR TECHNOLOGY

AL MONZA WL TR

AL GARDA WL OP

With their spherical covers made from opal glass or bubble glass, AL series lighting enhances the ambience of your space. The integrated motion detectors also boost comfort and energy efficiency – because they only turn on the light when it is really needed, activating additional lights in entrance areas, passageways or on patios as required.

Installation is also efficient and easy, due to the large wiring area and convenient mounting using one-handed plug base!

YOUR ADVANTAGES AT A GLANCE:

- Lights with different system glass designs, E27 base and integrated motion detector
- Motion detector with 130° angle of detection (2 sensors) and 360° creep protection (1 sensor) for unbroken coverage
- Simple adjustment of the field of detection and range due to the lens cover, which can be cut to size
- Switching output for connecting additional lights
- Simple wall mounting due to universal one-handed plug-in base with large wiring area

PRODUCT TYPES	FIELD OF DETECTION	DETECTION RANGE	
			Wall 12 m
		■ Diagonally (A)	12 m
		■ Frontal (B)	4 m
		-	-
