PERFECTION IN DESIGN AND SENSOR TECHNOLOGY

AL MONZA WL TR

AL GARDA WL OP

With their spherical covers made from opal glass or bubble glass, AL series lighting enhances the ambience of your space. The integrated motion detectors also boost comfort and energy efficiency – because they only turn on the light when it is really needed, activating additional lights in entrance areas, passageways or on patios as required.

Installation is also efficient and easy, due to the large wiring area and convenient mounting using one-handed plug base!

PRODUCT TYPES	FIELD OF DETECTION	DETECTION RANGE	
			Wall 12 m
		Diagonally (A)	12 m
		Frontal (B)	4 m

YOUR ADVANTAGES AT A GLANCE:

- Lights with different system glass designs, E27 base and integrated motion detector
- Motion detector with 130° angle of detection (2 sensors) and 360° creep protection (1 sensor) for unbroken coverage
- Simple adjustment of the field of detection and range due to the lens cover, which can be cut to size
- Switching output for connecting additional lights
- Simple wall mounting due to universal one-handed plug-in base with large wiring area

Product group / product name	Item no.	Colour temperature	Luminous flux (light)	Rated output	Luminous efficacy	230 V (ON/OFF)	Sensor	Dimensions (mm)
AL MONZA WL TR MD WH, (white, similar to RAL 9010)	EL10026102					•	•	X 215, Y 215, Z 292
AL MONZA WL TR MD BK, (black, similar to RAL 9005)	EL10026119					•	•	X 215, Y 215, Z 292
AL GARDA WL OP MD WH, (white, similar to RAL 9010)	EL10026133					•	•	X 215, Y 215, Z 292
AL GARDA WL OP MD BK, (black, similar to RAL 9005)	EL10026126					•	•	X 215, Y 215, Z 292
